

Science of Mind Class

Non-Certificated Class

CHANGE: GROWING THROUGH THE TRANSITIONS OF LIFE

Monday Evenings, 6:30 pm - 9:30 pm
March 5th - April 9, 2012 (6 Weeks)

Life IS change--and change can be intimidating...or exhilarating! How, then, can we profit from changes we didn't choose and manifest the changes we do want?

Using the principles of Science of Mind, this 6 week course provides activities that reveal how the key to all we need is already available within us, when we connect with the Changeless Source of All; and that the true essence of our being is divine, eternal, and one with infinite possibility. We use a variety of methods to reveal and heal hidden patterns and limiting beliefs, replacing them with the truth which aligns us to our real divine identity. Connected with our infinite Source, we then learn to reap the maximum possible benefits from any change and to manifest the changes we desire.

Instructor: Marilyn Letsos, RScP
Duration: 6 weeks
Location: GGCSL Learning Center
Prerequisite: None
Tuition: \$135

About Marilyn Letsos, RScP:

"Educare" is Latin. It means "to bring out what is already there". During my 35 years as an educator, I've been fascinated with addressing all the different ways people learn--and with making the process of bringing out the best in my students exciting and provocative. In my 17 years as a practitioner, actively counseling, mentoring, praying and teaching have deepened my connection with Spirit, honed my skills and ever sharpened my passion for seeing people step into the true, authentic empowered Self and live the life they truly choose to live!

GGCSL Learning Center
199 Greenfield Avenue, Upstairs
