

Rev. Karyl's Vision for Our New Home

It is my desire, my vision, and my prayer

for this community to have a home of its own –

...*a plot of land*, a building, walls and door thresholds, closets and a kitchen, teaching and healing spaces of our very own....

...*a physical place* where roots can go down and art can go up, where our people may be blessed as babies, married as adults, and memorialized as ancestors with their names on permanent plaques in spaces that grow hallowed because of the eyes that look upon them for years and years....

...*a sanctuary*, in the truest sense of the word, in which hearts and minds are shifted by the beauty and holiness that lives there, all the time....

...*a site with our energy in it* and our name on it, so that people who are drawn to our teachings and vision may easily find us, come in, and belong....

...*a space for our children* and young people where their expression decorates it and their presence blesses it, constantly and consistently....

...*a place of empowerment* where lessons in the Science of Mind philosophy, sacred leadership, and interpersonal skills can be facilitated, with all materials and plans easily accessible at all times....

...*a space of business* and sales where books and products that reflect our philosophy may be made available to the buying public during regular business hours throughout the week....

...*a holy place* where worship, celebration, gathering, learning, praying, playing can happen any time we want....

...*a beautiful environment* that emanates sacredness, inclusivity, invitation, wisdom, oneness, and the special and unique essence that is the Golden Gate Center for Spiritual Living, now and ongoing into the future.
